Fox Dun (known outside the Highland Pony world as Red Dun) is a Red/Chestnut based pony that also has the Dun Dilution gene. These ponies have to carry only recessive extension and at least one copy of Dun. The Agouti gene though present does not effect a red based pony.

The following are different colour genetic sequences for Fox Dun ponies;  
**ee AA DD, ee AA Dd, ee Aa DD, ee Aa Dd, ee aa DD, ee aa Dd**
